You will enjoy an approximate 45 minute guided tour around our farm. We will visit the cow barn, learn about the functions of farm life, and proceed to the milking area and the calf barn. After the tour, each person will receive an ice-cream cone of their choice, which is included in the cost of the tour. You are then free to wander around the grounds on your own or visit our country store where we serve light lunches, farm fresh dairy products, produce and more. The children can play at their own risk on the swings and enjoy the farm animal petting area (June-September).

I have read and understand the rates and guidelines of Birchwood Dairy's group tours and agree to abide by those guidelines. I also accept responsibility for my group that they will adhere to the rules of the tour guide.
